## EXPERIENCE

### Co-founder, Plan Sync · [Play Store](#)

Sep 2023 – Present

- Turned a weekend side project into a campus-wide app with 15,000+ user accounts (3,500+ daily / 9,500+ monthly active) by pushing to productize it early and owning the roadmap, feature decisions and outreach.
- Reached the first 1,000 users by designing and building the initial database and backend on Supabase and GCP.
- Cut API query latency by 76% by redesigning the backend with database indexes, asynchronous processing and response caching.
- Designed the current cross-platform UI and led the electives, search and network-error-handling features; reviewed and merged 8 contributor PRs as maintainer.

### Summer Trainee, DEAL DRDO

Jun 2025 – Jul 2025

- Reached 97.3% spam-detection accuracy, 4 points above baseline, by building an ensemble of SVM, Naive Bayes and Extra Trees classifiers in Python.
- Classified incoming emails in under 200 ms each by deploying a real-time pipeline with NLP preprocessing.

### Flutter Developer Intern, MemoNeet

Mar 2025 – May 2025

- Shipped a referral system by integrating Firebase Auth, Realtime Database and Razorpay payouts.
- Contributed to the backend for 1M+ users by writing Firebase Functions and Realtime Database security rules that keep data consistent under load.
- Reduced login failures by 5% adding handling for legacy devices in the authentication flow.

### Freelance Full-Stack Developer, MySanji · [mysanji.com](http://mysanji.com)

Oct 2025 – Mar 2026

- Migrated the production database from Firebase to MongoDB with zero downtime and no data loss by building a FastAPI layer between the app and the new database (1 month).
- Cut app size by 15% by rebuilding the app in Flutter and Swift over a 5-month overhaul.

### Freelance Software Engineer, Shanghai Global · [shanghaiglobalauto.com](http://shanghaiglobalauto.com)

Aug 2025 – Dec 2025

- Cut order-processing time by 50% and raised order capacity by 15% by building a cross-platform CRM dashboard on Supabase and GCP for inventory and orders.
- Raised customer retention by 20% by redesigning the company's WordPress landing page.

### Tech Domain Lead, Google Developer Group on Campus, KIIT (volunteer)

Feb 2025 – Present

- Taught mobile and game development to 2,000+ students by running workshops, webinars and bootcamps.
- Shipped 4 community apps by coordinating 30+ student developers from design to deployment.

### App Developer, Microsoft Learn Student Ambassadors, KIIT (volunteer)

Feb 2025 – Present

- Delivered a fitness-tracking and video-calling app in one month by leading a team of 13 students from scratch to release.

## PROJECTS & OPEN SOURCE

### Plan Sync (open source) · [github.com/plansync-in/plan-sync](https://github.com/plansync-in/plan-sync)

- Became the #2 contributor (49 of 576 commits) by shipping merged PRs for network-error handling, search and the electives UI.

### Weave, open-source contributor (MLSA Project Wing 2025) · [github.com/MLSAKIIT/weave-app](https://github.com/MLSAKIIT/weave-app)

- Built the login and signup flow, custom widgets and app routing for a Flutter video-calling app through merged pull requests.

### GDG Recruitment Screening · [github.com/NiikhilRaj/hiring-agent](https://github.com/NiikhilRaj/hiring-agent)

- Scored 500+ GDG applications and cut shortlisting time from 2 weeks to 3 days by adapting HackerRank's open-source hiring-agent (Python, Gemini API) with a custom rubric for domains, keeping human review of every shortlist.

## TECHNOLOGIES

**Languages:** C, C++, Python, Go, Swift, Dart, Java

**Technologies:** Git, Figma, MongoDB, GitHub Actions, REST APIs, Flutter, Grafana, Docker, Linux, Postgres, GenAI

**BaaS / Cloud:** Google Cloud Platform (GCP), Firebase, Supabase, AWS (Lambda, EC2, S3)

**Certifications:** SAP Certified Backend Developer (CAP) · IBM DevOps & Software Engineering

## EDUCATION

### Kalinga Institute of Industrial Technology, BTech in Computer Science

Aug 2023 – Present

Coursework: Computer Architecture, Operating Systems, Database Management Systems, Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Data Mining and Data Warehousing, Cloud Computing, OOD, OOP
